Financial Aid Policy

All financial aid programs administered by VUOM will be managed in accordance with the guidelines and criteria applicable to the program requirements as detailed in federal legislation, regulation, and other official guidance from the U.S. Department of Education (ED). Financial aid consists of scholarships and Title IV loans. The responsibility for making and coordinating financial aid awards rests with the Financial Aid Office. Financial Aid shall be awarded on the basis of the student's eligibility for the aid program(s), demonstrated need and/or student's request, as well as academic achievements. A student's Unsubsidized Direct Loan or a PLUS Loan borrower's loan amount may not exceed the student's cost of attendance (COA) when considering all other aid to be received.

All financial aid applicants must be admitted to VUOM prior to the award of any financial aid. VUOM requires all students who wish to receive Title IV funds to submit an institutional financial aid application form in addition to the federally required FAFSA documentation. The completion and execution of the institutional application form is regarded as the student's confirmation and acknowledgement of his / her receipt and understanding of the requirements for receiving federal financial aid through Title IV funds. The submission and execution of the institutional application form is also acknowledgement by the student that the information he / she has provided for financial aid is true and correct to the best of his / her knowledge.

Based on the information the student has submitted via FAFSA, a student's Institutional Student Information Record (ISIR) may be selected for verification. Verification is a process that the US Department of Education requires for certain students in which the student must present documentation to substantiate their financial aid application (FAFSA). If a student is chosen for verification, the Financial Aid Office will provide notice to the student of what they need to bring in and the applicable verification deadline. A student selected for verification must complete the verification process. If the student fails to correct his/her ISIR advised by the financial aid office and/or bring the required documentation, financial aid may not be awarded or disbursed.

A notification of award (i.e. an award letter) or award changes resulting from verification will be provided to the student along with any pertinent documents/information related to the specific awards of Financial Aid. Generally, this will be by e-mail, but may also be by paper correspondence or by messaging/notification on the institution's student information system's student access portal. One or more of these are also the methods that will be used to inform students of changes to their authorized award amounts and other matters related to the awards.

If financial aid students want to cancel or reduce the amount of aid, they have to communicate their desire with the Financial Aid Office in writing at least one week before the anticipated disbursement date. If there is no appropriate notification, aids will be disbursed as scheduled.

By submitting the institutional Financial Aid application, the student agrees to notify the Financial Aid Office of any changes in financial circumstances, including receipt of additional aid from other sources. The Financial Aid Office reserves the right, on behalf of VUOM, to review, revise, or cancel an award at any time due to changes in the recipient's financial status, academic standing, academic program, residency status, or outside financial aid awards, in accordance with applicable legislation, regulation, and/or institutional policies.

Students receiving financial assistance through the Title IV Federal Financial Aid Program are expected to enroll as at least half-time student status. Students enrolling less than full-time must notify the Financial Aid Office in advance so that their aid amount is properly awarded. If a financial aid student ceases to be enrolled, drop below half-time, or graduates from the program,
